

it has been a beautiful and a great learning for me
how to express myself to people...from different backgrounds...
different countries...different understandings...all over the world
every five days to a new city and again i meet new people
and i have to begin from the very beginning again

it is a beautiful experience
and you can see i have been travelling continuously for the last three months now
during all my travels...
so many beautiful people have the courage and the love to invite me
it is not easy to invite me
i am easy but the invitation sometimes creates problems...
to speak the truth is to remove the vested interests
of those parasites and bloodsuckers
who are lying to you all the time

my work is very strange
it is a work of innocence and love
and these are the most feared things in the world
knowledge can fight knowledge
i have nothing but innocence
it is dangerous
because you cannot fight a person who is innocent
you cannot fight love
you can hide from love
but you cannot fight it
and a person of love and innocence in this world today
is far more dangerous
than all the people in power and with vested interests
innocence does nothing in itself
it simply exposes the lies
and the lies will collapse
and what is revealed is the truth of your inner beauty

very strange phenomenon
why people are so afraid of me ?
i am simply an ordinary person
but this innocence...silence...and people are afraid

aakash here...he is translating...he said you must come to ukraine
so i said yes...absolutely yes...i am coming to ukraine
and i thank you all for such a beautiful and loving welcome
whenever i go to any place i have only one insistence
that all my events are to be done in nature...
near a river...in a forest...the open sky...
so they have organised a tour of ukraine

we are here to share our love
it is not a business for me
i have no needs whatsoever
all the people who create these events work very hard
first to invite me then to find nice natural environments for meditation
and keep the cost affordable for everybody
we will have a very beautiful tour
they have managed with great effort
whosoever can come and be with us
do not miss the opportunity
normally they are saying do not miss...
i am saying do not miss the opportunity...
hmm ?

i do not know when i can come again
i have promised people in south america...
in canada...in australia...in asia...
i am one man
not so easy to create these events
whoever can join...join...
