

i am always wrong
because i give way to the other
if i am content where i am...
if i am happy where i am...
and i see the other in misery
i give the other person first chance
you understand ?

always give way to others
enjoy their happiness
you are happy in their bliss
just be easy and life will give you so many treasures
when you are at ease with life

question *can you sing a song ?*

with great difficulty i have you sitting here
if i start singing you will all run away !
do not take such a risk !!
but in our tour
we have a beautiful singer coming
her name is tanmayo
she is coming especially for the tour
and somewhere in the back is ojas
where is he ?

there is a beautiful groovy guy
he is ojas
he is a great musician
so we will have some live evening music
some experiments
hmm mm
thank you ojas !

question *please tell us what is your attitude toward peoples sins or what is bad...*

no sins !
sin ?
all the juicy people are sinners
sin is nothing but others judgment...
that you are enjoying yourself too much...
there is no sin but unconsciousness and consciousness
everything that is done unconsciously is a sin
it is not a question of good or bad
even your good intentions
to help another can be a sin
when it is done unconsciously...
when it is done out of greed...

if you are super conscious
and you let a person fall
that will not be a sin
because you allowed the person to fall
you know he is going to stand up
he will find the balance
he will walk

the do gooder will give you a stick to hold onto so you do not fall again
ah...he is such a nice man...he gave you one stick so you do not fall
the whole life you got a stick now !
all these good people are creating handicaps within you
they are your handicaps
all these good people are creating guilt within you
these are the sinners

the so called sinners are just drunkards...
smoking a few cigarettes...chasing a few women...
just innocent sins...
and they are called sinners...
they are living their lives !
