

it is too big a subject for me to discuss  
i have spent seventeen years in the mountains in deep silence...  
trying to understand what went wrong on the way...  
the child is born so intelligent  
what went wrong ?  
and i have seen it clearly  
it is the education...  
the parents...  
the first enemy is the parent...  
but you are intelligent  
you can find the way out...
