

dewdrops

ozen rajneesh

when one reaches home after a long journey  
after struggling life after life  
the first thing that happens to a mystic  
are tears of gratitude and celebration  
those tears i call  
the tears of the mystic rose...  
it was morning...there was a rose...dewdrops  
and my tears falling and the rose  
mysteriously  
as if the rose was crying  
to see this phenomenon  
that here is the man...here is the master  
he is awakened and the rose is the witness !!

there is no reality to the i...just your identification  
this identification makes it appear to be real  
you can never drop the i  
just understand that identification creates the false i  
simply drop identification  
detach yourself  
observe  
watch  
and the i disappears into smoke  
watching silently...no thoughts...with no judgments  
simply watching  
the knack of watchfulness grows stronger  
and this separates you...from attachment  
from identification with the i

everything collapses inwards  
the whole sky collapses inwards  
the outer merges with the inner  
and it is no more an explosion  
it is not that you are becoming enlightened  
now..you are no more !  
the walls have completely disappeared  
and the last explosion is called an implosion  
where the dewdrop has become the ocean  
now the ocean has become the dewdrop

we ignore all that beauty that surrounds us  
look at this beautiful nature  
so silent  
so much radiation of light  
and we go on searching for light  
just look around !  
and the closer you get to understand  
the more you will feel your inner being  
and it will reach out to everything that is nature  
and all of nature will reach into your being  
and you will be one with this beautiful universe that surrounds you  
this is the song of truth  
this is the dance  
this is the celebration  
this is the gift of life  
these are such beautiful gifts

just feel the radiation from a simple hand  
nothing more than that  
if you can catch that thread  
and not only from an enlightened person...  
but from anything that lives  
you can understand life from every source  
from the children  
from your mother  
from somebody who loves you  
a flower  
these are all innocent sources of truth  
you do not need a master  
a master is indicating to you that a flower is enough  
he is indicating that the eyes of a child are enough

just feel its harmony  
its beauty  
its aliveness  
its buzz reaching out  
into all that is natural and living around you  
soon the inner will reach the outer  
and the trees and the birds  
and the rivers and the mountains and the rocks  
will start dancing with your inner  
you are all of existence  
you are all that is living  
reach out...it will reach you  
there will be no boundary

A close-up photograph of an orange flower petal, likely a gerbera, with several water droplets resting on its surface. The petal is vibrant orange with some yellow highlights, and the water droplets are clear and glistening. The background is dark, making the flower stand out.

just a pure individual  
seeking silently his inner being  
and whatsoever comes as a radiation  
just a natural flowing out towards others  
with no conditions...  
and when it reaches others  
you will be grateful that they have received  
they do not owe you anything  
even if you are giving your love to somebody  
it is out of freedom  
if that person accepts your love  
you should be grateful that somebody received it

transformation means going beyond  
into the state of no mind  
no mind is simply a state  
it is a state of vertical peaked orgasmic movement

finding the breath within the breath  
is the real secret  
again i say it very simple  
take the whole energy higher...higher...higher...higher...  
come to the peak ...  
the breathing stops  
you are in the gap...you are not breathing...  
breathing in and breathing out  
they are part of the mind...  
the gap is part of nomind

we have to come back to that state of simply reflecting  
i call it pure innocence  
so beautiful  
are you not blessed that your search is for innocence ?  
what a relief !  
how do you feel when you know that your search is for innocence ?  
it has a totally different flavour  
it has a totally different taste  
you can relax  
you can let go into not knowing  
you can dance and sing in your innocence  
what a beauty !  
all that weight off your shoulder  
you are flying !

there has never been an answer  
no buddha has returned with an answer  
they have returned utterly lost into the unknown  
just drunk with this divine experience  
utterly innocent...like a child  
not knowing anything  
but their dance and their celebration  
their innocence knows all  
and it is the only thing worth knowing  
your innocence and the very beauty of life  
then you can simply dance  
and in that dance  
a showering of gratitude towards existence  
for this precious gift of life  
you have such a great treasure  
life !  
to experience life  
to live it  
to share it  
you have life to share

live the state of truth  
drop by drop  
moment by moment  
then there is nothing to search  
there is something to dissolve into

truth is the ultimate  
you will have to surrender one day to it  
it is just a matter of time  
everything surrenders to truth  
ultimate victory is of truth  
it is never lost...never  
truth is the ultimate victory  
and love and compassion is the way  
let them find their home into your heart

this game of therapy...analyzing and dissecting  
and trying to understand the darkness  
it is like trying to analyze your shadow  
and no matter how much you analyze  
the shadow will simply follow you  
you cannot dissect shadows  
in the very first place they are shadows !  
do not fight a shadow  
do not fight the ego of the so called conditioning  
do not fight what you do not have  
you are fighting an absence !  
you are fighting that which does not exist  
it is your ignorance that you are fighting  
and you are going deeper into ignorance  
do not fight darkness with darkness  
do not fight the shadows of conditioning  
with your mind...with analysis  
bring in the light !

just the miracle of life  
and truth is hidden within it  
you do not need to find the answer to the miracle  
get lost into it  
and your life will become so beautiful  
such a mystery...  
such a freshness...  
such aliveness...  
my eyes are fresh...  
my heart is free...  
it is raining...  
i am dancing...

just be where you are  
become a silent being of stillness  
going nowhere...utterly still  
and the window will not open...it is already open !  
you do not need to open it  
just allow it to settle into you  
it is a deep let go into a deep relaxation

listening to a waterfall...  
is a sermon not even gautam buddha can deliver  
no master can deliver that soundless sound so perfectly  
who is the greatest master ?  
that waterfall !  
but do you know how to listen ?

we are very few people in this world  
each one has to contribute  
and share their celebration and love  
you will grow...the other will grow  
and life is all about growth  
understand the beauty in you  
and the light in you  
just share love  
and you will see their eyes are responding  
their whole being responds  
you are searching freedom  
and truth is the ultimate freedom  
live in freedom and allow the others total freedom  
freedom is important to you  
so allow the other to be free  
what you want for yourself give it to the other

innocence is truth itself  
it is the greatest quality you have within you  
on the inner search  
on the mystical path  
treasure your innocence !!  
the ultimate truth will never be known  
you will be consumed by it  
you will be drowned into it  
and you will fall into the state of innocence  
just like a child

when you are absent  
everybody becomes you !  
not only human beings  
also the animals...the birds...the trees  
the river...the butterfly...the rocks  
everything becomes you  
you want to take care of every particle of existence  
it is like a mothers womb

it is not even a search  
search means somewhere else  
that you are here and you are searching there  
you are it !  
no need to search  
you are it  
experience your isness  
it is not a search

the inner search is not a search  
it is a deep love affair with your inner beauty  
it is an expression of your love  
celebrate...express yourself  
share your beauty  
and the more you will share the space within you  
the more space will grow  
we are here out of the abundance of nature  
nature has so much to give  
it has given us life and the human form is the highest evolution in nature  
it is such a creative loving gesture of this universe to give you life  
all you can do is celebrate and share all that is beautiful in you  
express it...share it

i cannot translate the word gratitude...it is too deep...too sensitive  
a teardrop would answer it perfectly well  
and i am not speaking about buddhahood and enlightenment  
remember...just natural human gratitude  
whatsoever or whosoever it is  
this source of life...wherever this source of life is  
i bow to it !!  
and i am grateful for whatsoever i am receiving every moment  
this heart...this expression...becomes the soil for your inner search  
this vibration of consciousness will become the new man within you  
gratitude is the window to the new sky  
when you will experience truth  
you will not be grateful  
you will die utterly !  
it is utter death !

The background of the image is a clear blue sky with soft, wispy white clouds scattered across it. The clouds are most prominent in the lower half and left side of the frame.

the waterfall is trying to touch your heart  
the sunset is trying to penetrate you with its rays  
everything is reaching out towards you  
everything is collapsing upon you  
hence the great yogi says  
that the whole universe is within me  
what he is saying is  
my walls have simply disappeared  
the whole universe is simply collapsed within me  
i am so vast when i have no doors...no windows  
an open state...this vastness  
this universe is contained within me

do not accept anything as real  
seek what is real  
and you will never find the answer...  
you will dissolve  
and the mystery will become deeper and deeper  
with no answer in your hand  
you will fall deeper and deeper into the silence  
never take any answer for real...  
then you will hold onto it and it will be a lie  
there is no such thing as truth as long as you are still here  
the moment you will disappear you will open your eyes in wonder  
and somebody will ask you...what is the truth ?  
you will simply cry  
know perfectly well you have then understood

we are looking at each other  
because we have been taught to achieve...judge...and condemn  
and that is the way people are fighting in the world  
they are teaching you how to fight with others  
slowly you start fighting within yourself  
the moment you start judging others and comparing with others  
that same quality comes within you  
you start judging yourself and comparing with others  
it is bound to happen  
you will be filled with that same poison

breath is life  
the body is always present  
and to keep alive...breath is always herenow  
breath is the key to becoming present  
watching the breath...  
you have to breathe herenow  
our breathing has become unnatural  
uneven...unnatural...imbalanced  
thoughts emotions...a fast living pace affect our natural breath  
understand the circle of breath  
breathe in...thought...desire...  
gap  
breathe out...action...expression...  
gap  
in this pure sense...each inward breath creates a desire  
and each out breath releases and expresses through action  
if this is balanced...the gap is enlarged

become natural  
natural flowering..you can call enlightenment  
i do not even want to call it anything else  
be drunk with the divine

A misty forest scene with tall, thin trees and a soft, ethereal light filtering through the canopy. The ground is covered in a layer of moss or low-lying vegetation, and the overall atmosphere is serene and contemplative.

this overflowing beauty everywhere  
so much beauty  
nature is so dazzling  
the waterfalls...the forests...the trees  
so much beauty...in such harmony  
this beauty and harmony  
is what lao tzu calls the way of tao  
just fall in tune with the trees and the rivers  
with the waterfalls and the ocean  
just fall in tune with it  
it makes you realize that you are part of nature  
and if nature can be so beautiful  
and you are the highest flowering in existence  
how much beauty must be contained within you ?

A misty forest scene with a large, gnarled tree trunk in the foreground. The ground is covered in fallen leaves and branches. In the background, many bare trees stand in a foggy atmosphere.

the deeper you will go into the roots  
the higher you will climb naturally into the sky  
the tree is not climbing...it is settling into the earth  
and naturally there is going to be an equal and opposite force  
push into the earth  
and the equal but opposite force will be the result  
the tree does not struggle  
it simply relaxes in the spring  
and the rain comes and the air becomes fragrant  
the overflowing energy turns into flowers and fruits and fragrance  
it is so utterly naturally settled into being

sit under a tree  
become silent  
and the tree will show you the way  
the human being is also like a tree  
your seed...roots...trunk...branches...  
flowering...fragrance...  
you are a walking tree

The background of the image is a close-up, high-angle view of blue water. The water is filled with numerous small, concentric ripples that catch the light, creating a shimmering effect. In the lower-middle part of the frame, a small, bright white object, possibly a piece of foam or a small fish, is visible, partially submerged. The overall color palette is various shades of blue, from deep navy to light sky blue.

the fish is born in the ocean  
it lives in the ocean so it never knows the ocean  
it has never been separated from the ocean  
it is born in the ocean...swims in the ocean  
ignores the ocean completely  
for the fish the water is all around  
it is so close and it is so one with the water  
it does not know it is life itself  
but pull the fish out of the ocean  
and suddenly it realises...my god  
this is ocean !

find your natural body rhythm  
have a deep sleep  
breathe deep...ahhh...  
wake up when the birds wake you up  
live with nature  
drown into nature  
connect to nature  
nature is the greatest silent master  
if you cannot listen to nature  
to the trees and the river and the waterfall  
if you cannot feel the earth and its life  
then you do not know your inner master

once in a while i see your beautiful tears  
these are the real treasures  
these are the greatest treasures  
tears come from such deep inner spaces  
out of such a joy  
that for no reason tears come out of the eyes  
look at the value of those tears !  
they are indicating that life is flowing within you  
they are indicating that you are living  
have you seen a dead man cry ?  
this softness is your inner sky  
treasure it

it is simply a dissolving into your beauty  
into your own inner sky  
your love  
it is a deep love affair with your own inner grace  
you are not an ordinary person  
you are a divine being  
graceful...filled with light and love  
you have so much love in you !  
you can spread it to each and everyone you meet  
you have so many treasures in you

you are king of your own inner kingdom  
this is your kingdom...this is your temple...  
live in your temple like a priest  
enlighten yourself  
you have enough light  
spread it through your doors and your windows  
and soon your body will be your temple  
and your whole life will become a prayerfulness

do not believe in the mind  
that is the best way to deal with it  
simply ignore it..that is detachment  
if you want to deal with the mind  
you have already acknowledged that it exists  
when you say...i must deal with this mind  
you have said it is real !  
i am saying it is a shadow and an illusion  
ignore it...it disappears

your being...it gets one pulse of life  
moment to moment  
just one little pulse of life  
but so many dreams !  
so many desires !  
so much to do and to become !  
and life is so fragile  
you have no time left to breathe  
too many goals  
who has time to breathe ?  
who has time for life ?  
one pulse...one pulse...one pulse...  
few beautiful moments of life are given to you on this planet  
and now you see why people have gone mad  
one pulse at a time...a million dreams...a trillion futures...  
where can you run ?  
you are filled with misery because you cannot achieve it  
but in the first place it was not there to be achieved !

this experience of weightlessness  
just feather lightness  
with no sense of body...always surrounds you  
in a way the mystic is searching his childhood again  
just that innocent silent state  
where everything was simply buzzing  
and truth was showering  
the mystic goes backwards into this sensitive space  
just become sensitive again  
with a clarity  
with pure open eyes  
and go deeper and deeper to that moment  
where mind had not entered yet

self awareness is stupidity...  
when there is awareness...there is no self !!

from the source draw the act through the heart  
let it pass through and flow through your finger tips  
let the source spread slowly slowly through your entire interiority  
so this light can fill your inner being  
and you become so filled with this silence  
that slowly slowly it starts radiating outside you  
there is no boundary to your inner being  
the moment you know your inner  
there is no more inner and no more outer  
the inner and the outer melt and merge  
and you can feel its radiation  
hence i say...live meditatively  
live each and every small act consciously  
and in that small act of yours  
the centre will find its way and flow  
be gentle with yourself  
be open...

my god...we are living miracles  
and people are searching miracles !  
the miracle is searching a miracle...  
you are the miracle  
and the miracle is hidden within you  
god is hiding  
make it more alive  
and your presence  
is the presence of this divine livingness

anywhere everywhere !  
anything anyhow !  
just dance !  
just dance with the breeze...with the stars  
with the moon...with the sun...with the trees  
it is so infectious !  
dance with the bamboos  
with the trees in the rain  
have you seen the mystics when they reach ?  
they simply go into a dance  
they are not dancing anymore  
they have gone into the dance and only the dance remains

the fragrance of the rose  
is an overflowing abundance of its wholeness  
because it is natural  
and so much stillness and silence  
it is flowering abundance

the meditator is one who stops chasing things  
objects...dreams...desires...  
they lead you away and they do not fulfil you  
it takes you away and you miss the moment...  
that you are living presently herenow  
just learn to live herenow  
understand that you are perfect  
when you are in this moment  
everything is present

reaching out towards the universe  
and the universe is reaching towards you  
this light that envelops and surrounds your body  
is falling upon you and keeping you alive  
feel the presence that surrounds you  
that too is you  
it is you alive...coming into your body  
it is falling upon you...like showers of rain...keeping you fresh  
just feel the subtle body that surrounds you  
in a soft sensitive manner  
and you will certainly realize  
my god...i am so vast !  
and slowly slowly this experience of vastness  
will expand and expand and expand

A close-up photograph of a large green leaf with water droplets on its surface, set against a soft green background. The leaf's veins are clearly visible, and the water droplets are scattered across its surface, some larger than others. The lighting is soft and natural, highlighting the texture of the leaf and the clarity of the water.

aloneness is a peaked state of blissfulness  
in this state of aloneness you are never alone  
everything that is living...  
the rocks the trees and the mountains...  
are one with you in this silence

when you become wise you know  
that innocence is the treasure you are seeking  
your innermost treasure  
celebrating your life  
living it totally with gratitude  
not expecting anything in return  
you already have such great gift  
can you create life ?  
your precious treasure is your innocence  
it will heal you...it will nourish you  
it will show you the secrets of your inner being

A close-up photograph of a white flower, likely a lily or similar species, with a prominent yellow stamen. The petals are large and white, with some showing subtle veining. The background is a soft, out-of-focus light gray. The text is overlaid on the left side of the image.

this light showering all over the universe  
is the language of love and aliveness  
ask the trees what is love  
ask the flower what is love  
ask the birds what is love and they will sing  
the flower will open and send its fragrance to you

you do not need to know  
you need to be  
and nothing on this earth prevents you  
from finding a silent space  
and drowning into it  
grow inner trust  
grow your inner master  
only you can ignite it from within  
the moment you listen  
from the very centre of your being  
it opens  
and that is the miracle !  
it is not going to come from outside you  
it is the very deepest inner being within you  
you know where that key is  
that golden key to your inner mysteries  
you hold it in your innocence  
you hold it like a child  
and you can open it

remain sincere with any one method  
and find the totality within that method  
the moment you find totality within any single method  
the method falls away...and you understand totality !  
the method was just to teach you totality  
so when you are total in any single method...the method disappears  
what is left in your hand is the experience of totality  
so you do not need the method anymore !  
you have attained to the method and you dropped it  
you do not need meditation  
your very lifestyle becomes a way of living totally in every gesture  
then the meditation has helped you

each small action...do it lovingly...totally...consciously  
then you will not be doing it  
you will disappear in that act  
because you have done it totally  
that totality made you disappear  
and that disappearance is the meditateness in you  
each act done totally and consciously  
brings the buddha into you  
that gesture of totality  
is not you...but the buddha

you will understand slowly slowly  
why you are here...why i am here...  
rather..you are not here...neither am i  
i am not here... you also disappear !  
no one here...perfect !

body here...  
mind somewhere...  
emotions somewhere else...  
your breath is not connected to your reality  
your breath is not related to your bodymind emotion  
you are spread all over the world...scattered...dislocated  
hence your breath is confused and fragmented  
the breath has lost its vital naturalness  
the breath has become weak  
the vital gap is missing

trust existence totally  
and know once and for all  
that you are part of this beautiful existence...  
in oneness and harmony...  
and the moment you drop these walls of separation  
suddenly this whole existence will pour into you

nothing can destroy it...nothing can create it...  
if you can create something...certainly you can destroy it  
and the creator needs to be there to create it in the first place  
who made the creator ?  
something has been present in existence before  
and was always there before  
if you see creation to be material  
then you have not understood the source of creation  
the absence of matter is creation itself  
unmanifest in matter...that is the black hole  
the black hole has always been present  
with no object  
it can enter any object  
it does not only enter...  
it is the very subjectivity of matter  
to see the black hole in substance  
because of light  
you are seeing the outer sense of bodiness  
the inner sense is emptiness  
all objects are infused...merged...  
with a flowing power of the black hole

understand the light within you  
understand the life within you  
and light will lead you to light  
do not fight with shadows

just one act of kindness  
and slowly slowly you will feel such a beauty  
it is not holier than thou  
it is simply the way you live...  
and your life will become so beautiful  
because everyday you will feel i can offer something for someone  
just give somebody a hug...a smile...  
and that will be a deep meditation  
how to touch human beings ?  
how to connect to them ?  
that is the real test  
how can you connect to the universe  
when you cannot connect with human beings ?  
it is difficult  
but if you have love in you  
you will definitely share with everybody

you sleep in a deep pool of black  
that is the real awakening  
it does not wake you...it awakens you !  
awakening means such a tremendous restfulness  
such a deep state of rest  
that you are awakened

awakening happens from within  
waking up happens from without  
in awakening you are not present  
you have fallen into a black pit  
and the rest accumulates so deeply  
that your inner flowering simply opens  
and you are shown the truth of existence

you are life itself  
you are the highest peak of evolution of existence  
this life that has been given to you  
has raised itself to the highest potential  
you are not only human but you are divine  
to understand this divineness within you  
to see this inner being of light  
just a single taste of it  
and you will realise  
what all the masters have been saying  
what all the buddhas have been indicating to you  
pointing their finger to the moon

with nothing to do...all alone  
this aloneness is the taste of you when you are free  
learn to absorb and drink this state  
and the moment you will learn that silence is your friend  
you are not alone anymore  
you are one with existence  
you are dancing with this whole universe  
you are not alone  
you have found a way to reach into the depth of silence  
into each others hearts...  
into living people...animals...trees...birds...the sky..the rocks  
now you are not alone for the first time !  
you have found an inner meaning  
you have understood the treasure of communion  
how to commune with life

this is the mistake of people in power  
they think power is that they can obstruct somebody  
they can...but they are creating a wall  
nature does not like walls  
you obstruct one...you obstruct another...you keep obstructing  
you are creating a great wall of china  
now to maintain that power of obstruction you need more power  
then you need to keep guards at every point  
and then you need more power to see that those guards behave  
power is being distributed all over the world just to maintain the obstruction  
real power does not create walls  
it is so powerful  
it says welcome everybody..  
i do not create walls because i am above it all  
anybody who knows he has ultimate power is not afraid of anybody  
what is the fear ?

bridge the peaked stillness  
and the deep stillness  
sky to earth...as one

a mystic mystifies everything in existence  
he creates a certain device  
that you wonder...do i really know ?  
and you are mystified by everything that you see  
when you become a mystic...you look at a rose  
is it red ? is the rose red ?  
that innocence  
opens the window to the inner being  
a mystic is like a child  
utterly innocent  
why kill the butterfly ? why pin the butterfly ?  
let it dance  
aliveness is the butterfly  
do not pin aliveness  
live life  
a mystic invites you to live life totally  
with a new quality of mysteriousness

in the east we never do psychoanalysis and therapies  
we simply find a way to jump out  
to take a leap into the beyond...energetically  
to leap into the state of no mind and the mirror is perfectly clean  
the higher you go the further and further away the clouds will be  
and the pure state of witnessing...your mirror...has always been perfect  
it is so simple  
do not fight with clouds  
do not deal with shadows  
do not deal with illusion  
that is why we do not pay attention to emotions thoughts and mind  
because these are just your attachments  
just switch on the light  
bring in the light  
to understand how to switch on the light  
is not the same as dealing with the mind and emotions  
they are simply ghosts walking in a dark room  
bring the light and the shadows disappear

awareness is a heightened state of consciousness  
a heightened peaked energetic state  
silently watching...  
nothing !!!  
it is simply watching nothingness...

if gratitude is missing in your human life  
that window to fly into the sky can never become available  
the moment your heart opens you are simply mystified  
you cannot imagine how you lived your life till now  
it moves you so deeply...  
the word gratitude becomes your very aura  
it simply becomes your very life breath  
because you realise what you have received  
it is such a vast gift and you feel so humbled  
what did i do to deserve even this body..this heart...  
this ability to live and love...

the healer is in wonder what is happening  
the healer is utterly innocent like a child  
and watching the wonders of existence  
the wonder of this nature  
nature is the healer  
become natural  
healing is nothing special  
it is like life  
just allow stillness  
to do its natural work  
and natural work of stillness is healing

nature is taking care of us in a hundred and one ways  
that very understanding creates a new vision in you  
and you learn to let go and relax and surrender to existence  
existence is so vast  
even in a desert  
just one drop of water and suddenly the green grass will grow  
it just needs the right situation  
the right climate...the right soil...the right nourishment  
and nature immediately supports it in a hundred and one ways

each breath needs to align to our actions  
one breath...one act...and we are aligned as one  
you receive only one breath each moment  
one breath at a time  
but you are so filled with un-lived desires  
in so many directions  
so many incomplete thoughts and desires  
that your breath becomes unrelated to your actions  
you are walking...thinking...somewhere else  
thinking...dreaming...imagining...desiring...smoking...talking...all at once

undisturbed...not contaminated...  
full flow...full power  
nature flowing naturally in full force is the truth  
this is your destiny  
you...flowing totally...naturally  
in your whole natural force in pure abundance  
this is your buddha nature  
if you can learn the secret way  
how to fall in tune with nature  
there cannot be anything else but the truth  
that you will drown into  
not a single leaf...not a single blade of grass  
not a single drop of water...not a single star  
nothing on this planet that you see around you  
nothing is following its own way  
everything is in harmony

there is no mind...there is no darkness...  
only you do not know where the light is !  
it is an illusion !!  
everything that is dark within you...  
is just the absence of light

have you ever heard the bees ?

zzzzz

that is the sound of truth

no words

imagine gibberish...think of the master jabar

he started speaking gibberish

now that is a masters device !

he does not want to give you words

you need to look at him

you need to drink him

through his gestures

through his eyes

through his presence

and he is speaking gibberish !

this ego of becoming...of doing...keeps you away  
from the simple innocence of your inner being  
again and again i will say to you  
that your entire search for truth  
is hidden within you  
it is within you  
in the deepest state of silence  
and utter stillness  
it reveals itself to you

the worst is the attainment office...  
that i am going for enlightenment  
do not go to office for enlightenment...  
just become a natural human being  
and in that beauty a certain wisdom will flower in you  
and if nothing happened you celebrate nothing happened  
thank god nothing happened  
because nothing is meant to be happening  
do not expect anything to happen...please !  
whatsoever has to happen has already happened  
you simply become aware of what is happening already

before you go to search for truth  
see what you have present within you !  
see what is already within you  
and if you find nothing  
then think about going to find it elsewhere  
but if you look deep within you will not need to go anywhere  
because truth is already within you !

millions and millions of drops of water  
cascading down the waterfall  
each and every drop creating pure sound...  
a pure vibration  
not a single drop...not a single drop...is uttering a lie  
millions of molecules of water rushing by  
and you can hear the sound of aum...aum...aum...  
pure vibration of truth  
filling the air in such abundance  
the master is present in that waterfall

that is why only the warriors know how to surrender  
and a defeated warrior is an emperor  
because you are going to be defeated in love  
this universe is going to swallow you  
you will learn to let go  
in such a joy...in such a celebration  
that nothing can touch you  
even death will bow to you  
here is a fearless being !  
and it will show you the door  
to your immortality

we keep on searching for god but you cannot see a blade of grass  
if you cannot see the truth of it and its utter nudity...its utter innocence...  
you cannot recognize god when he comes to you  
you do not have the eyes to recognize godliness  
just looking at a flower and there it is  
it is speaking to you from every corner  
it is sending you its fragrance  
it says hello...do not pass by me unattended...  
but who has time for a flower ?  
you are searching god  
god is that flower !  
listen to it  
and if you can taste it  
in the simple day to day life  
then know perfectly well you have come home  
and you will realize your ordinariness  
and the very beauty of it

the deeper you will go...the higher the peak  
the higher the peak...the deeper you will go  
earth and sky...  
earth to sky...back to earth  
this is the journey

try to understand how to bring the light in  
and look at all the qualities of light  
celebration...love...surrender...sharing...a walk in nature  
a swim in the river...playing with children...a walk on the beach  
these are all activities of light which make you joyful and blissful

you are nothing but vibrations  
different frequencies of light  
your whole body is vibrating  
continuously humming within you  
but we have forgotten our subtleness  
your inner world is like a child  
innocent...sensitive...humming...vibrating

innocence  
not destroyed by mind...by knowledge...by learning  
this innocence carries the mystic within it  
you can look at the blue eyes of the child  
you can see the unpolluted naturalness  
so full of energy  
so full of love  
so full of wonder  
this is life...this sense of wonder  
pure innocence  
not knowing anything  
it need not know anything  
it has life flowing...present  
the presence of life  
the abundance of life flowing in you  
dissolves all questions  
a child is innocent...full of life...bubbling  
and such a beautiful innocence !  
you can see the beauty and the grace  
its fulfilment

to me innocence is the greatest treasure  
forget all kind of stupid achievements  
enlightenment...or whatever you want to call it  
innocence is by far the greatest treasure on this earth  
not knowing...that innocent state  
just a waiting heart  
that is truth itself

at least on the inner journey  
leave it innocent and beautiful  
it is your treasure  
your love...your temple...  
the door to your inner divineness  
leave your inner temple utterly pure...  
naked...transparent...open...  
let the inner doors to your temple remain open  
to the sky and the wind and the sun  
and let it dance in ecstasy !  
at least for your inner being  
keep the innocence...the nobodiness...  
the vulnerability...the sensitivity...  
let these be the taste and the flavour of your inner sky  
you do not need to fight a battle  
this is a love affair

third eye...to see  
seventh sense...to be...being  
seeing and being  
that is the difference between third eye and seventh centre  
the mystic...sees  
the master...is being

remember the candle does not know darkness  
the candle flame is pure awareness  
it is not showing you anything at all...  
it is simply living its nature !  
if it happens that it is showing you things  
that is secondary  
it is not primary  
the candle is simply being itself  
it does not know the other  
it does not know anything more  
and that is the very root of wisdom  
awareness is pure wisdom  
with no knowledge  
pure wisdom knows nothing  
and that is why it is always fresh  
it is always young  
it is always uncontaminated  
it is always innocent

the greatest treasures in life are found in rare moments  
of stillness...of love...of gratitude...of blissfulness...of innocence  
a celebration...a deep acceptance  
a big yes to the beauty that surrounds you  
and you are not making any effort for it  
just becoming available to what is present

the world is a psychedelic drug experience  
when you will die you will know...  
the greatest psychedelic explosion of drugs in the body  
and there is a reason  
you are dying...your soul needs to leave the body  
the body will start releasing so many drugs in you  
so that you relax and the soul can be removed  
when i had my experience of samadhi...this is what i realised  
i was getting so drunk...  
my eyes were getting so heavy  
such deep ecstasy i could not even have imagined  
i have to use the word ecstasy for this particular reason  
the word bliss is so far away  
the whole body was dancing like molecules in an explosion of light  
that was a state of samadhi...

A close-up photograph of a pink lotus flower in full bloom, positioned in the lower-left foreground. The flower's petals are a soft, pale pink, with some showing a slight gradient to a deeper pink at the base. It is surrounded by dark green, slender reeds that rise vertically from the water. In the background, the water is a calm, muted greenish-brown, with several large, flat lily pads floating on its surface. The overall scene is peaceful and serene, with soft lighting that suggests a quiet morning or late afternoon.

look at a beautiful flower  
without any thought...simply look  
and you will see suddenly  
you are filled with energy  
you are not losing anything  
but that flower is filling you with its light  
touch something softly...sensitively  
and you will feel that you are not losing anything  
but something infinitely beautiful and sensitive is entering you  
once you learn inner stillness and silence  
all your senses become your friends

empty...open...available  
the greatest treasures come to you...  
you cannot search them  
you cannot find them  
they find you !  
because life needs you  
life wants to share its treasures with you...  
remember life is not your enemy  
it is searching you  
hence these treasures come to you  
when you are open  
just remain open...silent...innocent and wait...  
this is the message of the buddhas

when you are exploding in love...in ecstasy  
even the rocks want to live  
within that rock...within that stone...is life pulsating  
it recognises your totality  
even the rocks start dancing !  
the rocks are totally alive  
the more total you will be  
the more your peaked state will be  
you will see the rocks are living  
the rocks are breathing  
and they are growing  
even the rocks are growing !

i do not have answers to careers  
all those who meet me lose their careers  
if you want to become jobless  
then i can show you the way !  
i can only show you how to lose your job  
how to lose your relationship  
how to lose your desires  
you are a loser with me...  
i am a loser myself  
i only respect losers...  
those who can gamble  
go gamble  
and be a loser  
keep losing keep losing...  
soon there will be nobody left  
one day your body...  
you will have to lose it  
you have no choice

becoming innocent again to the vast unclouded sky  
is to come home  
is to clean the dust of the mirror  
and become a pure witness  
witnessing is an art...  
it is a simple knack...  
just a pure watchfulness...  
no thought...vacant...empty...  
in that watchfulness...  
the whole becomes available to you

how to bring up children ?  
do not bring them up !  
you do not need to pull children up  
they are already growing !!  
you become like them

when the heart is open it is one with everybody  
truth is universal  
you do not have a path..you are the universe !!  
your heart has become the other

this outer existence that is just dancing with life  
cannot reach you...  
because you are in between  
let these boundaries disappear...  
and you are nobody  
just a pure emptiness  
unbounded  
weightless

when you are living  
find ways to live totally  
find every possible expression  
of how to create a deeper flow  
more totality in your actions  
find ways to create life in such abundance  
with so much overflow  
that you simply drown into it  
your mind is shocked into silence  
this energy that peaks and hits the crown  
all those questions are bombarded  
with such an energetic explosion  
that they simply evaporate !  
even the meaning of life evaporates  
when it sees life itself flowing with such a tremendous force  
mind disappears

we have lost sense of our natural body in this alive real moment  
hence we do not live purely in our body herenow  
always living in the past...body mind emotions  
here again lies another complexity  
the mind living in the past...projects into the future  
this is the complexity  
the dead past...of mind and emotion judgments  
projects itself into the future  
you are projecting your present moment  
either into the past or the future  
you are never in this present moment

the greatest mystery of wisdom is a teardrop  
a deep thankfulness for this miracle of life  
without gratitude we have not become human  
this is the sky of humanity  
gratitude is human and it brings such a grace to your life  
you can be grateful for everything that you have received  
just look at what you have received  
look at this body...these eyes  
the ability to hear...to smell...to taste  
to have this beautiful form  
to have the ability to respond and meet and share and love  
such a vast treasure has been given to you

that is the dream...to reach the sky  
to touch the moon...the stars  
and let your heart open  
the sky is pulling you up  
it is finding a path for your inner dream to rise  
into the sky  
because within you is the same sky  
you are the earth reaching the sky  
your dream needs space for expansion  
where is that expansion but the sky ?  
where are the stars but within you ?

limitations make us humans  
but the beauty is that hidden within these limitations  
there is a hidden treasure  
now that is the wonder  
that hidden in this mud there is a diamond  
is that not even more spectacular ?  
through the mud...through the water  
a long stem and flowers above into the sky  
you are the lotus !

from that dark space all you see is light  
what you think is dark is immense light  
because you have fallen into the black hole  
from within the black hole everything simply explodes into light  
psychedelic light  
this light is so ecstatic  
even orgasm is not the right word for it...it is too small  
it melts you completely down  
you melt...you become transparent...pure air...  
it is so orgasmic you cannot absorb its ecstasy

all enlightened people are blind people  
and they never judge anybody  
wherever they look there is a buddha  
whatever they see they see a buddha  
wherever they look there is love...  
it is their blindness !

A serene landscape at dawn or dusk. The sky is a soft gradient of orange, yellow, and blue. A calm lake in the foreground reflects the sky and the silhouettes of several trees, including a prominent pine tree in the center. The overall mood is peaceful and contemplative.

your treasure is silently within you  
learn to listen deeply...inwardly  
learn to dive in and trust its voice  
learn to trust your inner being  
learn to love yourself  
be soft  
just accept yourself exactly how you are  
and the struggle will disappear  
and your energy will become a vast reservoir of love  
settled and relaxed  
then you can listen deeply  
and trust your inner being

the east has offered surrender as the way to ultimate glory  
you are bowing down and in that bow...  
you are raising your being to the sky  
yes...it is a defeat...a defeat in love !  
in love you are totally surrendered  
utterly defeated  
love surrenders  
it accepts this defeat as glory  
and this is the beauty and the grace of surrender

when you look at something of beauty  
what triggers you ?  
something in your heart triggers  
and the beauty filters through your eyes  
into your consciousness  
and it fills you with wonder  
when you hear beautiful music or the sounds of the birds  
they awaken your inner consciousness and make you dance  
when you touch something of beauty  
something within you becomes beautiful  
if you know how to be silent  
all your five senses become windows to your inner sky

your inner being is thirsty  
and drinks only beauty...silence...grace...innocence  
these are the qualities  
that are absorbed by your inner being
